

## How Butter Is Pasteurized

The process of pasteurization applies intensive heat to the cream, then quickly cools it to a low temperature. The object is to insure the butter against impurities and make it a more palatable product.

## BLANCHARD BUTTER

has an exceptionally rich, fresh flavor, due to pasteurization. It is pure, safe and economical. Costs no more than unpasteurized butters.

If you prefer the special cuts of our Maid O' Clover or Four-in-One Butters, you have the same assurance of purity; both are pasteurized.

## AMERICANS CITED IN ARMY ORDERS

### Six Members of Field Ambulance Corps Praised for Great Courage and Coolness.

Paris, Aug. 2, 12:36 p. m.—Six members of the American field ambulance corps were cited today in the orders of the day in the French army.

Brooks Leonard Edwards of Philadelphia is mentioned as having shown "the greatest courage and coolness in seeking the wounded in the advance." "His ambulance was damaged by bursting shells," continues the citation, "in crossing a violently bombarded zone. He repaired his machine and fulfilled his position completely conveying wounded beyond the danger zone."

James Hilton Sponagle of Gloucester Mass., is cited for "his remarkable coolness in repairing his motor on the road under violent bombardment and transporting wounded during a period of intense shelling."

Thomas Potter of New York; Everett Jackson of Colorado Springs; Colorado; Walter Wheeler of Yonkers, New York; and John Clarke of Plushing, New York; are each cited separately for the calm intrepidity and devotion with which they carried out their duties amid perilous conditions. All the men named are working in the Verdun region under the direction of Herbert Townsend and Henry White.

Section No. 1 of the ambulance is also cited "as crossing many times a locality intensely bombarded with poisonous gas shells and working without rest for 32 hours."

### WILCOX TO OPEN HEADQUARTERS

Chicago, Aug. 2.—William R. Wilcox, chairman of the Republican national committee, will arrive in Chicago next Wednesday prepared to open the national headquarters and to announce the organization that will be in charge. This was the advice received by leaders of the party here yesterday. When Charles E. Hughes, the presidential nominee, reaches Chicago Tuesday morning it will be to find the western campaign under way, it is said.

Speculation is active among Illinois Republicans as to who will be placed in charge of the Chicago headquarters. Frank H. Hitchcock, former postmaster-general, and Joseph B. Keating of Indianapolis are mentioned in connection with the position.

has been sunk by a German submarine after the crew had been ordered to take to the boats.

## COMPETITION IN NAVY FAVORED

### Rear Admiral Would Select Naval Officers for Promotion and Graduate Retirement Pay.

Washington, Aug. 2.—Rear Admiral McLean, Judge advocate general of the navy, told the conference today that desirable competition among naval officers would be secured by selecting them for promotion and advocating the selective plan for all command officers. He said there was competition for promotion in other navies. He said also he advocated graduated retirement pay and retirement in the lower classes for age.

Rear Admiral Badger, retired, of the general board, and Rear Admiral Strauss, chief of the ordnance bureau, reiterated objections to the selection promotion system, declaring ample competition now existed.

## TWO EXPLOSION VICTIMS FOUND

### Bodies of Captain Cornelius Leden and Unidentified Man Float in Bay.

Jersey City, N. J., Aug. 2.—Two more bodies were found today floating in New York bay within a few rods of the scene of the explosion. One body was identified as that of Captain Cornelius Leden, chief of the Lehigh Valley railroad police and previously reported missing.

The finding and identification of Leden's body paves the way for the prosecution of those who may be found responsible for the explosion. In complaints upon which warrants have been issued and served upon four persons, the death of Leden is made the basis of individual charges of manslaughter. To make out the case it was necessary to have the body found and identified and every effort was made to recover it.

The other body found today bringing the death list up to six, has not been identified.

### DANES OPPOSE SALE OF ISLANDS

London, Aug. 2, 2:47 p. m.—Messages received here today from Copenhagen say the Danish authorities have not confirmed the reports of the sale of the Danish West Indies to the United States. The newspaper Politiken says the Rigsdag will hold a secret session on Friday, when the government will answer questions on the subject.

The newspaper Koebenhaven has started a campaign against the sale of the islands. The Danish officials are all reticent and censorship on messages is being maintained.

An official statement was made at Washington on July 25 that negotiations for the purchase of the Danish West Indies by the United States from Denmark for \$25,000,000 had virtually been completed.

## NO REPRIEVE FOR CASEMENT

### Former Knight Embraces Religion, Bid Farewell to Relatives and Prepares to Meet Doom.

London, Aug. 2, 6:38 p. m.—Lord Robert Cecil today authorized the Associated Press to state that the Roger Casement would be executed tomorrow. There will be no reprieve, Lord Robert declared.

Gavin Duffey, counsel for the former knight, is responsible for the statement that the condemned man has embraced the Catholic religion since the passing of the death sentence, having requested instructions and daily ministrations from a priest visiting his cell.

Mr. Duffey declared also that the prisoner had now seen and bade farewell to his nearest relatives who called and spent some time with him prior to his execution. He is now in the jail. The doomed man is reported as unusually cheerful, bearing himself as one unconcerned.

The execution set for 9 o'clock tomorrow morning will be private.

In explanation of the government's refusal to reprieve Roger Casement, Lord Robert Cecil, parliamentary under-secretary for foreign affairs and minister of war trade, gave to the Associated Press the following statement:

"No doubt of Casement's guilt exists. No one doubts that the court and jury arrived at the right verdict. The only ground for a reprieve would be political expediency, a difficult ground to put forward in that this country never could strain the law to punish a man for the same reason that it could not strain the law to let one off."

### Murder of Unarmed People.

"The Irish rebellion began with the murder of unarmed people, both soldiers and police. No grievance justified it and it was purely a political movement organized by a small section of Irish people who still hate England and was assisted by Germany."

"There was, and still is, in this country the greatest possible indignation among the people. There is no doubt that Casement did everything possible to assist the rebellion in connection with the Germans. There can be doubt that he was moved by sympathy for this country."

"The contention that he landed in Ireland for the purpose of preventing the rebellion in demonstrably false. No such assertion was made by counsel at the trial."

### Casement Malignant.

"Casement was much more malignant and hostile to this country than were the leaders of the rising who were caught with arms in their hands. He visited military prisons in Germany with the intention of persuading Irish soldiers to throw off their allegiance. All sorts of promises were made for the improvement of the conditions of these men to join the Irish legion. An enormous sum of money was offered and Casement refused and thereafter was subjected to increased hardships by the Germans."

"From among these Irish soldiers a number has since been repatriated or hopeless invalids and they subsequently died. They look upon Casement as their murderer."

"Nor is there any ground, public or private, so far as we know, which can quote in mitigation of Casement's crime and I do not think any government doing its duty could interfere with the sentence which has been passed on him."

## MORE CHILDREN DIE OF PLAGUE

### Forty-one Deaths and 166 New Cases in New York City in Past 24 Hours.

New York, Aug. 2.—Forty-one children died and 166 were stricken in the greater city during the last 24 hours in the epidemic of infantile paralysis. The seat of the plague shifted to Manhattan borough today, and there were more deaths and new cases reported in that borough than at any previous time since the inception of the plague. Jersey City reported three deaths and two more cases and reports from other nearby cities indicated that the epidemic was far from being under control.

This is the largest number of new cases reported in a single day in the five boroughs. Since the epidemic began there have been 4,289 cases reported and 937 deaths.

#### HOW HE FELT.

(From Tit-Bits.)  
The conditions in the trenches were dreary in the extreme after the drenching and long-continued rainfall, but the irrepressible spirits of the "Pals" were not yet entirely quenched when the order came to leave the trenches.

"Hurry up out of this, my gallant soldiers," was the cheery call of the Sergeant to his waist-deep and rain-soaked men.

"Soldiers!" came the derisive answer from one of them. "I'm not a soldier; I'm a blooming bulrush!"

## GERMANY TO FIGHT FOR LINER APPAM

Norfolk, Va., Aug. 2.—Prince von Hatzfeldt, counselor of the German embassy at Washington, came to Norfolk today for a conference with local counsel in the Appam case.

When asked if he knew the submarine Deutschland had left Baltimore, the prince said:

"So I've heard but I have nothing to do with her."

"Do you think she will stop at Newport News?" he was asked.

"I do not know," he replied. "I see no reason why she should, but I think that I would stop somewhere inside the three mile limit."

Prince Hatzfeldt said Germany would continue to fight for the possession of the Appam which the federal district court has awarded to the English owners.

## WHEAT PRICES GO SKYWARD

Chicago, Aug. 2.—Announcement that thousands of acres in Manitoba have been so badly affected by black rust that they would not pay the expense of harvest, led to a fresh advance today in wheat values here. Damage beyond precedent was also reported from the Dakotas and Minnesota. Bullish sentiment, too, received further impetus from higher quotations at Liverpool and from signs of decidedly more demand at the Gulf of Mexico. Opening prices, which ranged from 7-8 to 2-3 3/4 higher, with September at \$1.25 1/8 to \$1.26, and December at \$1.29 1/4 to \$1.30 1/4, were followed by additional sharp gains.

Predictions of dry, hot weather gave corn values a lift. There was a notable lack of offerings. After opening 3-5 @ 1-2 to 7-8 @ 1-c higher, the market reacted a little but then rose to a greater extent than before.

Improved export call strengthened oats. Hedging sales showed considerable falling off.

Lower quotations on hogs carried down provisions. The monthly statement of warehouse stocks had but little effect.

Advances in prices became of sensational extent in the later trading. The chief reason was that black rust was said to have spread in Canada, and to be dangerously threatening in Saskatchewan, after having wrought havoc in Manitoba.

September wheat here finally touched \$1.31 3/8, a clear ascent of 7 1/8 @ 1-4 above yesterday's finish. Today's close was excited with September at \$1.30 5/8, a gain during the session of 6 3/8 @ 1-2-c a bushel.

### CAR LINE STRIKE TO BE NATIONWIDE

New York, Aug. 2.—The threatened tie-up of every car line in Greater New York is to be only the first step in a nation-wide strike of street car men in order to win the union's demand for the right to organize everywhere, it was stated today by Louis Freidiger, counsel for the union organizers.

"This is a country-wide affair," Mr. Freidiger declared. "The organizing of street railway men is progressing rapidly. Attention is to be centered first on New York City."

There leaders informed the mayor there had been one instance at least of the discharge by the New York Railways company of an employee for union activities and that a strike would be the inevitable result. The mayor requested them to withhold action until tomorrow's conference and elicited a promise, it was announced at the mayor's office, that his wishes would be respected.

Meantime the New York Railways company was making preparations against a strike and already has gathered a force of several hundred professional strikebreakers. The police also were taking all precautions and Police Commissioner Woods has assurances from Governor Whitman

that 10,000 state militia were available to prevent disorder should the strike prove too big a problem for the police.

Although the mayor has not relinquished hope of bringing about arbitration, it was said that he feels the attitude of the strike leaders and railway officials is such that the chances of avoiding a strike are small.

## LACK OF FUNDS MAY END STRIKE

Duluth, Minn., Aug. 2.—Lack of funds may end the strike on the Minnesota Iron Range and defeat the Industrial Workers of the World, according to Elizabeth Gurley Flynn, I. W. W. leader. Admitting that the miners are feeling the pinch of penury, Miss Flynn frankly stated today that

her chief purpose in remaining in Duluth was to canvass laboring men for funds and to solicit aid from unions and labor organizations in other cities by mail.

Miss Flynn stated that more than 800 families on the Range are dependent on others for support.
